1. General Information

1.1. Programme Title

Minor Programme in Entrepreneurship and Innovation
创业与创新管理副修

1.2. Academic Unit Involved in the Delivery of the Programme

The Minor Programme in Entrepreneurship and Innovation is to be offered by the Entrepreneurship and Innovation programme and administered under the Division of Business and Management

1.3. Programme Aims, Objectives and Intended Learning Outcomes

In today's uncertain environment, many young people struggle to find their identity, understand their environment, and chart their course. Priorities are difficult to establish and choices are not easy to make when confronted with the complexity, instability and ongoing change of contemporary life. The Minor Programme in EPIN aims to significantly enhance the educational experience of students while better preparing them to deal with the world around them. The focus here is on developing students' entrepreneurial mindset and their ability to cultivate critical skills to think and act in more creative, innovative, opportunistic and proactive ways.

To achieve these aims, the design and structure of the Minor Programme in EPIN include required and elective courses with solid experiential content, and provide opportunities for entrepreneurs to share their valuable experiences with students through workshops, entrepreneurial seminars and field trips to start-ups and large business enterprises.

In sum, the aims and objectives of the Minor Programme in Entrepreneurship and Innovation are:

- (1) to apply diverse concepts of business and society and to develop creative capacities that are essential to initiate, build, and grow business ventures;
- (2) to nurture entrepreneurial spirit and competencies by applying business-related knowledge and skills to develop and implement innovative ideas required for sustaining and growing organizational and new business undertakings.

Table 1 outlines the Programme Intended Learning Outcomes (PILOs) of the Minor Programme in Entrepreneurship and Innovation and Table 2 delineates the alignment of its PILOs with the Graduate Attributes (GAs) of UIC.

Table 1: Programme Intended Learning Outcomes (PILOs)

Upon successful completion of the Minor Programme in Entrepreneurship and Innovation, students should be able to:	
PILO 1	Acquire broad-based knowledge and concepts related to the functions and roles of business and society.
PILO 2	Apply the core business knowledge and entrepreneurial competencies to realise creative and innovative entrepreneurial ideas from conception to fruition.

PILO 3	Develop analytical, problem-solving and risk assessment skills and techniques from a multiple set of disciplines to solve complex real world problems.
