#### 1. General Information

# 1.1. Programme Title

Minor Programme in e-Business Management and Applications 电子商务管理与应用副修

#### 1.2. Academic Unit Involved in the Delivery of the Programme

The Minor Programme in e-Business Management and Applications is to be administered under the Faculty of Business and Management.

## 1.3. Programme Aims, Objectives and Intended Learning Outcomes

The Minor Programme in e-Business Management and Applications aims to equip students with fundamental knowledge and techniques in managing e-businesses and in integrating e-business with other business models, in order to become creative problem solvers, critical thinkers and team leaders in managing and tackling real world problems. The Minor Programme in e-Business Management and Applications is structured to provide students with opportunities to pursue their interest in e-business management and applications within a structured curriculum, promoting understanding across disciplines and broadening the context for life-long learning. It also helps to develop in students a range of intellectual and practical skills readily transferrable to work settings in their chosen career fields.

**Table 1: Programme Intended Learning Outcomes (PILOs)** 

Upon successful completion of the Minor Programme in e-Business Management and Applications, students should be able to:						
PILO 1	Apply broad-based knowledge and concepts about the functions and roles of e-business models and tools, and develop the basic technical and managerial skills, which are fundamental to successfully managing e-business or integrating e-business with traditional business.					
PILO 2	Integrate knowledge and skills of e-business management and applications into a multiple set of disciplines, with the aim of solving diverse real-life problems, based on the analytical and problem-solving skills they have developed.					
PILO 3	Develop critical thinking with a global perspective and communicate effectively in broader business, professional and interpersonal contexts.
